

# Sorting Leaves by Size

Name \_\_\_\_\_

Learn about how leaves are alike and how they are different. Go outdoors with an adult and collect 15 leaves. Then, sort them into different groups based on their size or color. Practice describing the features of the leaves (how they look) to someone else.

small leaves	big leaves

Name \_\_\_\_\_

# Sorting Leaves by Color

Look at the leaves in your pile. What do you notice about their colors? Then, make a different stack for each color and sort them: green, yellow, brown, and orange. If there are other colors, sort those too.

**green**

**yellow**

**brown**

**orange**
