## Reading Activities for Ages 0-2

- 1 Use your voice:** Don't be afraid to "perform" as you read.
- 2 Be a Role Model:** Show them how you love to read.
- 3 Create a Picture Book:** Find a plastic-coated baby's photo album that you can put pictures into.
- 4 Identify Their Interests:** Whether your little one demonstrates an interest in dogs, flowers, or balls, there's a book with pictures that will fascinate them.

Want to foster a love of learning at home?

**TIP #3: Don't Try to Recreate School**

### Tip #3: Do Not Try to Recreate School at Home

Schools often send home packets of curriculum material for families & students to complete. These are just one way of promoting academic thinking. However, there are other equally important ways to foster critical thinking, cognitive development, and whole child growth. There are situations & experiences that you can provide at home that can provide authentic, real-life application & practice of what your child is learning in class. Parents should consider opportunities for **informal education** (i.e. learning from experience) as well as **formal education** (i.e. learning through structured academic exercises) as learning is dynamic. Parents should seek out interactive, hands-on activities to promote learning in various environments.

Provide high-quality, interactive resources from a variety of media that pertain to different topics to support whole-child growth. These foster curiosity & lead to more comprehensive thought processes. Visit the **Learning Made Fun With Maestra Casiano Online Store & Learning Hub** to explore educational theories, resources, products, & ways to support your child's learning experience as a unique learner.

Who says learning can't be fun?

[www.LearningMadeFunWithMaestraCasiano.com](http://www.LearningMadeFunWithMaestraCasiano.com) is the **one stop shop** for engaging learning materials; fun, family activities; interactive books; novelty gift ideas & **FUN**tastic resources for curious minds of all ages!
